

## Component capability list

Within the scope of the Component Capability List, the following abbreviations and definitions shall apply:

Abbreviation:

CMS – Component Maintenance Shop  
BMS – Base Maintenance Shop  
SRS – Structure Repair Shop  
WBS – Wheels and Brake Shop  
FRAD – Flight Recorder and Analysis Department  
IRS – Interior Repair Shop  
WWSC - Water and Waste System Components Shop  
MRV - branch at Mineralnye Vody Airport

Definitions:

“Overhaul” – component maintenance up to and include high schedule maintenance level that stated in the applicable / vendor’s maintenance data. Inspection, testing, trouble shooting, defect rectification, component replacement, repair and modifications are included in to the “Overhaul”.

“Inspection /Test” – component maintenance up to and excluding high schedule maintenance level that stated in the applicable / vendor’s maintenance data. Trouble shooting, defect rectification, component replacement, repair and modifications are included in to the “Inspection /Test”.

“Repair” - rectification of defect(s) using an applicable / vendor’s maintenance data. Inspection, testing, component replacement and modification are included in to the “Repair”.

“Level II” - component maintenance up to and include high schedule maintenance level that stated in the applicable / vendor’s maintenance data. Inspection, testing, trouble shooting, simple defect rectification and line-replaceable unit (LRU) replacement are included in to the “Level II”.
